CIRCUIT OF ZOLDER

WIN YOUR TOUR

22|09 PROGRAM

Arrival at 12.30h with coffee, drinks and small sandwiches

13h30 START

Start of the seminars in 3 groups

- **Phoenix Contact** (cases)

Complex systems that must operate in a failsafe way require intelligent automation solutions: industrial lighting, tunnels & waterways. Phoenix Contact offers a comprehensive portfolio for these applications, from remote control technology, and safe communication networks to redundant control. All of these individual components can be optimally adapted to the individual project and combined to create a tailor-made turn-key solution.

- **Schröder** (cases)

Through 48 companies worldwide, Schröder is Your Partner Beyond Light. We design and develop intelligent solutions that transform public and private spaces into safe, comfortable, sustainable and smart environments with engaging experiences for the users and operational benefits for the managers. We are your one-stop partner: from design to after-sales, including light, control systems, finance and a lot more smart features (CCTV, WLAN, EV chargers...)

- **P&V Elektrotechnik** (visit - transfer by bus)

For more than 30 years 'P&V Elektrotechnik' has been a leader in the design and construction of distribution and control panels, for the markets INFRA, INDUSTRY, BUILDINGS and OEM. With a team of 180 experienced employees, 'P&V Elektrotechnik' is the largest independent panel builder in the BeNeLux. The engineering and manufacturing capabilities of 'P&V Elektrotechnik' are built on quality, flexibility and reliability.

Alternately switching of the groups after 45 min.
2 Dutch speaking groups, 1 French speaking group.

17h00 TESLA TEST-RIDE

The 50 winners of the day will ride with our experienced drivers around the circuit in a Tesla. In the meantime there is a reception for the other participants.

18h30 DINNER

Network event with walking diner.
